

cragl connect

A detailed video of how to install and use connect can be found here:

[www.cragl.com/connect](http://www.cragl.com/connect)

## Installation

- 1) If not already done so you can download connect here: [www.cragl.com/connect](http://www.cragl.com/connect)
- 2) Unpack the downloaded zip file and put the cragl folder into your NUKE home directory. Depending on your operating system the NUKE home directory can be found here:

Linux: /home/username/.nuke

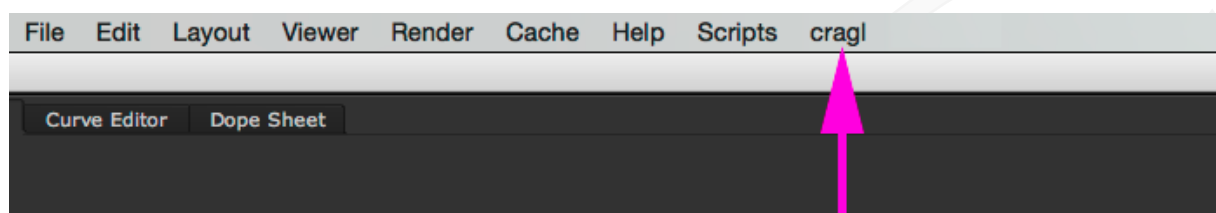

Mac: /Users/username/.nuke

Windows: C:\Users\username\.nuke

- 3) Open the init.py in your NUKE home directory. If there is no init.py file then create a blank text file and save it as init.py.
- 4) Add this line to your init.py:

```
nuke.pluginAddPath("cragl")
```

## Checking if the installation was successful

## Further information and documentation video
